

BV Selection Chart 6Vlts

WLO-2024-BV-Selection-6Vlts

Burial Vault Selection
As you select the vault for your loved one, also consider the quality of the vault. Legacy Prints offers a variety of vaults to meet your needs. Each vault is made of heavy-duty concrete and is designed to protect your loved one's remains for generations to come.

Premium Protection
High strength concrete, steel lining, and heavy-duty locking mechanism. This vault is designed for maximum protection and is the most secure vault available.

Standard Protection
High strength concrete, steel lining, and heavy-duty locking mechanism. This vault is designed for maximum protection and is the most secure vault available.

Basic Protection
High strength concrete, steel lining, and heavy-duty locking mechanism. This vault is designed for maximum protection and is the most secure vault available.

Premium Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
Standard Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
Standard Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
Standard Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
Basic Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
Basic Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
Basic Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
Basic Protection - Granite Tomb	High strength concrete, steel lining, and heavy-duty locking mechanism.	High strength concrete, steel lining, and heavy-duty locking mechanism.
