THE KARINE BOUCHARD SERIES

Artist Profile: Karine Bouchard
Karine's passion for memorial products started with a special request to create an urn for friends who had lost a child. Combining her love of ancient glass blowing with the desire to uniquely honor a life lost too young, Karine discovered a special calling. Her rare sense for the strengths and limitations of color, lighting, and shape leads to spectacular designs that are poetic in tone with each glass creation as unique as the person it commemorates.

An award-winning designer, Karine operates Verre Minuit, Inc. (Midnight Glass, Inc.). Her leading edge designs make her the preferred choice for North American and European clients in the funeral, lighting, hotel and architectural fields.
