Artist Profile: Lester Lampert

With innovative jewelry designs long popular with celebrity clientele and nationally renowned for his museum collections, he has found a renewed passion with memorial products. To Lester, no segment of his work speaks to him as clearly and emotionally as the designs created for the purpose of memorializing a lost loved one.

The Lester Lampert jewelry collection has been designed to become a lasting, tangible symbol of the special bond that exists between you and your loved one... a bond that continues well beyond the physical boundaries of your time together on earth. His focus is to help capture a moment in time and bring comfort to your heart as you reflect on the joy and spirit of all that made your loved one special.
